

## **NEW SAFETY REQUIREMENTS:**

**PARADE SPEED & MOVEMENT:** For the safety of all parade participants all units must maintain 3-5 miles per hour and be within 10-20 yards of the unit in front of them.

### **CANDY, TOYS, LITERATURE, ETC.:**

To help mitigate any injuries, please follow these suggestions given by the Neenah Police Department:

1. It is forbidden to throw any items into the crowd from a vehicle, trailer, or float
2. Participants of groups/organizations may walk the crowd lines and "hand" candy/items to the spectators
3. Parade participants AND event organizers will be held liable for any negative situations based on violating the rules
4. If a parade participant is observed throwing objects from a vehicle/trailer/float by an officer or city employee, the group can be fined and/or banned from following parades.

### **For your information:**

After last year's Community Fest Parade, the NPD determined that they would place crowd lines, (soft barriers with police tape or rope) near Wisconsin Ave. and Commercial St. to hold the crowd/children back. This should only have to be done for part of the parade route.
